### Three Essentials

"We must have courage, and determination, and most summed up the necessary unanimity," said a distinguished British statesman the other day, in counselling his countrymen on the necessity of maintaining her trade. These words might just as well have been uttered by a Canadian statesman for the qualities named are all essential to this country at the present juncture. Canada is now offering the 1919 Victory Loan and it must be pushed through to success with courage, determination and absolute unanimity. Canada is to prove the worth of her opportunity.

Great opportunities for trade lie within the grasp of Canada if her farmers, wage-earners, merchants and manufacturers have foreign enough to reach for them. On the maintenance of our great overseas trade built up during the war rests our ability to carry on. One of the great objects of the Loan apart from the rehabilitation of the returned soldier, is the raising of the capital necessary to enable the Government of Canada to continue its system of credits to Great Britain, France, Belgium and other countries, and at the same time pay cash to the Canadian producer. On these credits our present and future trade depends and all Canadians must unite to ensure an ample subscription to the 1919 Loan which alone will render them impossible.

### The Weller Trio.

The Beatrice Weller Trio, booked to appear here on Monday, heralded with a wealth of approbation from towns in which they have appeared. The Washington "Observer" says of them: "Not since the famous earl of Limerick, Frank Board, visited Washington in the middle of the summer has a local audience been entertained with a more interesting and amusing 'chat talk' than that given at the West Side Auditorium last night by Miss Weller and her versatile companion." The Irish should claim Miss Weller, if they haven't already, for they can't afford to pass up her quick tongue and clever fingers. She knows her work thoroughly and imparts to her audience that they go home at the close of an evening with the notion that their knowledge of art has notably increased. Especially impressive is one of the ensemble numbers: "The Little Brown Church in the Vale." The baritone's voice, carried so understandably by the violin, takes you back to those other days when the sleighs crunch over the snow to the "special meeting." And then—before your eyes dawns the picture your mind has been painting—the pale moon rising behind the old, worn church steeple, the evergreens brushing the doorway of your little brown church—and you wipe your eyes and say with the others: "We'll laugh with her; we'll cry with her. Surely Miss Weller is an artist."

### A Big City Show...

In this day of dances and gaiety "Make Yourself at Home," Harry Segal's up-to-the-minute musical comedy, which comes to the opera house next Wednesday, November 6th, will be found in keeping with your native mood. Relaxation from the business trials is gained largely through the theatre, and plays requiring little thought are most in popular demand. With this idea in view, "Make Yourself at Home," was built around an interesting story of romance richly embellished with comedy to which is set a lively score which includes singable, whistable and danceable tunes. In fact the play is just one joy ride on the billows of mirth.

The Bolshevik system of using numbers instead of family names ought to prove popular with persons who have occasion to wrestle with Russian nomenclature. It would be less fatiguing to say "Good morning, 4-11-44," than "How do you do, Count Sosostroushnikoff."

### Win A Prince's Flag

The British Prince of Wales took the post of Canada by storm. They fell in with him at once. Set for his royal birth for his genuine frank, admiring and of that he saw. His interest in Canadian air never failed.

When he heard of the Victory Loan his interest was shown in a practical way. He consented to his crest being used on a flag—an "If you" flag that will be given to each city and district that gains their quota of the loan.

"I hope every city and district will win my flag," was the challenge thrown out to Ottawa. The "Prince's Flag" was first won at

The citizens of each will each have an allotment of the loan. Any one of them that reaches that objective will be allowed the proud privilege of claiming one of the Prince's flags.

Remember, then, that your city wants one. Get after it. If your district is to win a flag it may mean your bond that makes the right number. Buy a bond yourself and persuade your neighbor to buy one too.

### Working Classes

#### The Backbone

Every little bit counts. Let no citizen of Canada who has faith in the future of his country with his financial help to the new Victory Loan enterprise because he is only able to afford \$100.

He should take heart from the fact that the working classes formed the backbone of the subscriptions to last year's Victory Loan. There were no fewer than 707,001 subscribers of \$100 and under and their subscriptions amounted to over \$100,000,000.

Now, if every subscriber of \$100 and under has year work to receive to double the amounts of their subscriptions during the present effort the loan would be on the straight road to success. The working classes stand to benefit considerably from the wise use of the working capital provided by the Victory Loan. They have shared in the prosperity which has been the good fortune of Canada during the war and after, and they will participate in the advantages of the trade and business which will increase during the present period as a result of their financial help and co-operation.

Let the slogan of the average man and woman in Canada be "Double last year's subscription" and all will be well with the Victory Loan, 1919.

### The 1919 Victory Loan

The people of Canada are once again asked to demonstrate their thorough-going Canadianism by subscribing to the limit of their financial ability to the Victory Loan, 1919.

Throughout the war the people of Canada never once failed to meet all demands made upon them by their country, and Western Canada in particular established a record for self-sacrificing patriotic effort unsurpassed in any province or country. "Looking back over the history of the past five eventful years," the people of the West "have nothing with which to reproach themselves; on the contrary, they have every reason for justifiable pride in their efforts and achievements."

The Great War is over so far as the fighting is concerned. It has ended in a triumphant victory for our cause, a victory made possible by the efforts of the five years now happily gone. But while the fighting is ended, victory achieved, and our soldiers home again, one very important part of Canada's war effort is yet uncompleted. The Victory Loan, 1919, is necessary to finish the work.

War is a tremendously expensive business, and modern warfare calls for a much larger expenditure than was dreamed of in the centuries of the past. Canada pledged its honor to contribute all its powers, resources and wealth to the winning of the war. We said we would go to the limit of our last man and our last dollar in such a just and noble cause. Our men went, thousands gave their lives, other thousands are maimed and suffering from wounds, all require to be again established in civilian life. They have brought imperishable honor and glory to Canada. As soldiers their work is ended.

But Canadians who remained at home, and who, therefore, had the easier part, have still to finish their part of the work. The bills contracted to win the war must be paid. Furthermore, the expense of war did not end with the actual fighting. It cost millions to house our soldiers home, and many more millions for pensions and for establishment. It requires millions for reconstruction work. Other millions are necessary to finance the sale of the products of Canada during this reconstruction period throughout the world.

This money must be provided, and it must be provided by the Canadian people themselves. The Victory Loan is the medium through which this necessary provision is to be made.

When, during the war, our boys went "over the top," they had an objective before them, and it is said to the credit of Canada's soldiers that they never once failed to reach their objective. But while the "storm" troops went forward, others had to do the less spectacular but equally important work of "mopping up." All enemy dugouts, machine-gun nests,

shelters had to be accounted for and a general "clean-up" carried out. If this was not done, and done thoroughly, there was grave danger to the final success of the operation.

Canada as a nation has reached its objective in the winning of the war. Now the task of reconstruction must be attended to, all bills must be paid, and adequate provision made for our soldiers, and the necessary funds provided to keep all the wheels of commerce and industry turning in this Dominion. With falsehood and unrest rampant throughout the world, it would be nothing short of a national calamity if business became stagnant in Canada and unemployment widespread. The result would be disastrous, and no man can foretell what the end might be. A large over-subscription to the 1919 Victory Loan will avert such a disaster.

This is not a loan to the Minister of Finance. It is not a loan to Union Government. It is a loan by the people of Canada to Canada itself. In other words, it is a loan by individual Canadians to themselves in a collective capacity. It is a loan for national purposes, and every cent of the loan will be spent in Canada and thus redistributed again to the people of Canada. Canadians will receive the interest paid on the loan, and will ultimately receive back the whole of the principal.

Canadians fail to realize the amount required, Canada must borrow it elsewhere, and if Canadians refuse to lend their own country the money it needs, it stands to reason that other people will only loan it at absolutely ruinous rates of interest. Furthermore, the payment of that interest abroad will constitute an annual drain upon Canada, impoverishing us, but adding to the wealth of other countries.

Canada must pay its war bills and finance its own reconstruction policies. It is far better both for the individual taxpayer and the nation that Canadians themselves should provide the principal sum to cover such expenditures, and to pay to themselves the interest charges on that national indebtedness.

Every Canadian should, therefore, strain his or her resources to purchase the largest possible amount of Victory Bonds. Quite apart from helping Canada, and maintaining our national honor and credit before the world, it will prove a first-class investment.

The second point is unquestioned, namely, the entire resources of the Dominion. The interest rate is good—for better than that, wait by any financial institution, on savings accounts.

Help Canada to "mop up" by buying Victory Bonds, 1919, to the limit of your ability.

Saskatchewan's Butter Production—Ninety-seven cars of butter, valued at \$125,000, were exported from Saskatchewan last year. This is an increase of eighteen cars over the number sent out of the province in 1917, and an increase of \$30,000 in value. Part of the increase in value is due to higher prices that were ruling in 1918 over those of the previous year.

### DR. FOWLER'S EXTRACT OF WILD STRAWBERRY CURED HER

Mothers should look well after their children during the hot summer months, as it is a time of year when the young ones are liable to all kinds of bowel complaints.

If your children have any looseness of the bowels do not experiment with new remedies, but call in Dr. Fowler's Extract of Wild Strawberry.

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 74 years. "Don't accept any substitute, perhaps endanger your child."

Mrs. Willis Copland, Sunridge, Ont., writes: "About four years ago my son, aged 18 months, had a bad case of diarrhoea. I took him to the doctor, but to no avail. After he had given her, I read of Dr. Fowler's Extract of Wild Strawberry and cured him in two days. He was improving fast, I cannot even praise it enough. I hope some poor sufferers will see this letter and seek help from a friend."

Price 35 cents. Post only by The T. Milburn Co., Limited, Toronto, Ont.

### Underwork.

Causes of Imaginary Maladies Which Often End in Insanity

"Overwork is bad," said a doctor, "but it's nothing like so bad as under-work."

"Overwork may slay its thousands, though I doubt it, but under-work ends its tens of thousands beyond question. Under-work is the cause of neurasthenia, insomnia, fatigue waves and all that host of imaginary and yet incurable maladies which so often end in insanity or suicide."

"In the South Sea Islands the climate is perfect, nature is bountiful, and everybody can live without work. What is the result? The result is that the South Sea Islanders are feeble-minded, practically idiots."

"Andalusia is another place with a perfect climate and a perfect soil. Everything grows all the year round in Andalusia except weeds. The Andalusians devote themselves mainly to music and love-making. Result? A race of scrawny, under-sized, illiterate!"

### Plowing Moderate Depth

Provided the plowing of the summer fallow in the previous year has been deep, as it should be, there is little advantage in deep fall plowing for wheat. About four or five inches will bury the stubble satisfactorily, and will not be so much in danger of leaving an open dry bottom to the seed bed as where a large amount of stubble is turned in too deeply. This is even more true of early spring plowing, where a moderate depth is decidedly preferable.

## Sunflowers Ideal Forage Crop

Careful Experiments to Determine Relative Values of Various Fodders

It would seem to be settled beyond doubt by the experiments of Professor G. H. Hutton, superintendent of the agricultural and animal industry branch of the Canadian Pacific Railway, conducted at its experimental farm at Strathmore, Alberta, that sunflowers are the ideal forage crop of this province, if returns in tons per acre are any criterion of crop values.

Two and a half acres close to the buildings on the farm were sown in rows three feet apart this spring, irrigated and properly cultivated between the rows, and the crop, which has just been cut and placed in stacks, was accurately weighed and the resulting yield of 396 tons to the acre, green weight placed in silos. As there is moisture at the rate of 24.1 per cent. in sunflowers, this would give a yield of dry matter per acre of a little over six tons.

Compared under similar conditions at Strathmore returned 14 tons to the acre, and the moisture content being 78.72 per cent., the return in dry matter was 2.4-3 tons per acre. Peas and oats returned seven tons of green forage, and the moisture percentage in this crop amounted to 62.64 per cent., the weight of dry matter was 2.3-3 tons per acre.

Results as given by experiments conducted at the state experimental farm in Montana last year showed a high food-value in sunflowers giving that oilcake an equal value with corn ensilage as feed for dairy cattle, and as being far superior to either corn or oats for sheep, but during this coming winter Professor Hutton will conduct careful experiments at Strathmore to determine the relative values of these various fodders when ensiled.

The results will be watched with the greatest interest by farmers, ranchmen, and the public generally, to whom the question of forage for winter feed under irrigation conditions is a matter of supreme interest, involving, as it does, the capability of the country to sustain a much larger proportion of livestock to the acre than is possible under present conditions.

The Brazil nut tree does not begin to bear fruit until it attains the age of 50 years or thereabouts, and continues to produce crops intermittently, trees known to be hundreds of years old have produced crops.

The Goodness of Apples

Because we like apples we use them, but apart from that we use them because they contain healthful acids, needed minerals including iron, lime and sulphur, many calories of energy, and some real nutrition. ## A Nervous Wreck

BY DR. D. L. GRANTHER.

Illustration by H. C. G. Smith.

How many business men feel fagged out, nervous, with a "soggy brain"—worn out completely before the day and its tremendous tasks are half over? Try the right way. Clean the body first. That will help your nerves, your head and your circulation. Your doctor will tell you that anything from a headache or a common cold to grippe or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and saffron by most druggists as Dr. Pierce's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Anurie" (anti-uric-acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Anurie" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.

### Increased Bank Clearings

The continued and increasing prosperity of Saskatchewan is reflected in the bank clearings at Saskatoon during the past month, when an increase of more than a half million dollars over the clearing house figures for September of last year, or practically forty per cent., was announced. This financial increase is general throughout the province and is indicative of the progress and success of its population.

Three or four nineteen-year-olds happened to stroll to within a half mile of a house still on Saturday night and became delightfully intoxicated, in their own estimation, but damnable in eyes of lookers on. When the atmosphere is dense with "still" fumes, such boys should stay at home and try to keep mother's lap warm.

Canadians!

*This is a call to National Service—  
The Victory Loan 1919  
which opens to-day.*

YOU are citizens of no mean country.

Canada is a fair, free land.

Canada is your country.

Canada—now—has need to borrow from you—Lend:

Lend without restraint of politics or fine distinctions of creed or party.

The leaders of the political parties endorse the Loan.

It is CANADA that asks:

And why—

To clean up the last of the War's commitments and expenses;

To establish beyond all question the capacity and credit of your country;

To care for the wounded and maimed soldier;

To finance the bonus of the returned soldier already paid;

To enable the fruits of Victory to be garnered;

To ensure the prosperity of you, her citizens.

The guns of war are silent—but they are not yet cool.

The Victory Loan 1919 is a War Loan.

Canada's book of war is gloriously written—make this, the closing chapter, a worthy one. The responsibility is yours. LEND!

# British Government May Not Resign

London.—The country is suddenly faced with the possibility of the resignation of the government or the dissolution of parliament, owing to the quite unexpected defeat of the government in the House of Commons by a majority of 72. Only about half the members were present, and the vote by which the government was defeated was 185 to 113.

The Alien Bill, the earlier stages of which were disposed of during the summer session, was in the report stage. The committee had previously inserted an amendment withholding pilotage certificates from all aliens, and the government sought by amendment to modify this restriction in favor of many of a number of French pilots, for whom special provision had been made in the existing Pilotage Act. This amendment, however, was defeated, although in charge of government whips.

The announcement of the figures was greeted with loud cheers from the opposition quarters, and caused much excitement. Andrew Bonar Law immediately moved adjournment to enable the government to consider what course it should adopt. He admitted that the defeat of an amendment with government whips was a serious matter requiring consideration, but declined to admit that it necessarily implied the resignation of the ministry. This, he declared, would depend upon the view of the House of Commons as a whole.

Opinions on the situation, as expressed in the lobbies, are conflicting, but, in view of the small attendance in the house it is thought that the government may decide not to resign.

## French Ex-Premier to Be Tried January

Caillaux Will Be Charged With Intrigue To Bring About Dishonorable Peace

Paris.—Joseph Caillaux, former Premier of France, on January 14 next is to face his accusers on a charge of intrigue to bring about a premature and dishonorable peace with Germany.

This was decided by the senate, sitting as a high court. The decision to set the trial for January was reached by a vote of 89 to 67.

The high court declined to accede to Caillaux's request for provisional liberty during the campaign for the chamber of deputies election, the vote on this question being 100 to 36.

He has announced his candidacy for deputy for the department of Sarthe.

## Curzon and Balfour Change Portfolios

London.—It is officially announced that Earl Curzon has been appointed Foreign Secretary, in succession to Arthur J. Balfour. Mr. Balfour has been appointed Lord President of the Council to succeed Earl Curzon.

London.—According to official advices, the Esthonians captured 500 prisoners; three guns and much material in the Pskov and Ostrov regions.

# U.F.O. Do Not Favor Coalition

Toronto.—There will be no alliance of the United Farmers of Ontario in the legislature with either the Conservatives or Liberals, but they may join with individual members of the old line parties in forming a government. This decision was arrived at by the members-elect of the United Farmers and U.F.O.-Labor after a lengthy session.

Following is the official statement of United Farmers of Ontario, issued by Secretary J. Morrison:

"The members-elect of the United Farmers of Ontario, after discussing the matter, have decided that it would be unwise for them to enter into alliance with either of the old parties. They are prepared to assume the fullest share of responsibility and form a government in co-operation with such members of other parties as are in sympathy with their platform and principles; and are free to give support thereto."

"In the formation of a cabinet, full consideration will be given to the various interests of the province."

Revised standing of new Ontario legislature follows.

## The Kaiser's Telegram

Declared Breach With America Could Not Be Prevented and Could Not Be Helped

Berlin.—President Wilson's peace offer was a matter of little concern to the German Emperor, according to the evidence presented before the subcommittee investigating the war. Furthermore, the intervention of the United States apparently was not seriously considered by the emperor.

The incident caused a sensation and occurred during the examination of Count von Bernstorff, former German ambassador at Washington. The Socialist deputy, Dr. Shishmanov, turned toward von Bernstorff and said:

"The kaiser's telegram, to which you refer, dated January 16, 1917, and addressed to Herr Zimmerman, foreign secretary, says:

"His majesty instructs me to thank you for your communication. His majesty does not care a bit about President Wilson's offer. A breach with America cannot be prevented, it cannot be helped. Events are developing."

There was much excitement at the hearing when the messenger read Dr. Helfferich, former vice-chancellor, whispering "Nonsense."

Dr. Shishmanov maintained that the peace conditions sent to President Wilson on January 28, 1917, which were said to be the same as Germany offered on December 31, 1916, were really nothing like them. Everyone present appeared astounded at this statement, and Count von Bernstorff exclaimed excitedly:

"Then I am told this today for the first time."

## End of Bolshevism

Position of Volunteer Army, Despite Few Failures, Said to Be Brilliant

London.—A wireless message sent by General Denikin, anti-Bolshevik leader in South Russia, contains a message from Gen. Skuro, which says:

"The position of the volunteer army is brilliant. It is quite evident the entire Bolsheviks are at hand."

Reds began hastily to fortify the suburbs of Tula, when at a meeting Leon Trotsky, Bolshevik minister of war, declared that a general battle must be fought outside of the town.

Reds' Reduction of Farm Hours Opposed

London.—The central and associational chambers of agriculture have adopted a resolution warning the government that any reduction of the hours of agricultural workers would seriously limit the increase in food growing, increase the cost of living, and diminish employment on the land.

German-Austria Title Abolished

Vienna.—The National Assembly adopted an act abolishing the "German-Austria" for the nation and substituting the title "Republic of Austria." The Pan-German party offered violent opposition to the change.

Opposite State Purchase of Liquor

London.—Addressing the annual gathering of the United Kingdom Alliance, perhaps the most influential prohibition association here, President Lieut Jones declared that any statesman who brought a measure for the nationalization of the drink traffic would not last a fortnight.

A delegate who advocated a state purchase encountered much opposition.

"Pussy-foot" Johnson addressed the meeting.

Rioters Resumed in New York

New York.—Rioting broke out again around the Lexington theatre, when for the second time in a week the Star Opera company produced German opera over the protest of veterans of the world war.

## Newspaper Changes In U.S. Probable

Serious Newsprint Shortage Must Result in Draconian Conservation Policies

New York.—S. S. Carvalho, one of the foremost newspaper publishers in the United States, in an interview to "Editor and Publisher," predicts that the serious newspaper shortage and the consequent advance in price must result in drastic conservation policies if the newspaper publishing business is to continue on a sound business basis, and hundreds of newspapers are to be saved from suspension. Increased subscription rates, higher advertising rates and smaller newspapers are, in Mr. Carvalho's opinion, inevitable if publishers are going to meet even part way the increased cost of production as represented by the enormous advances in wages, newsprint, machinery and other commodities, and service necessary to the production of a newspaper.

The kaiser's telegram, to which you refer, dated January 16, 1917, and addressed to Herr Zimmerman, foreign secretary, says:

"His majesty instructs me to thank you for your communication. His majesty does not care a bit about President Wilson's offer. A breach with America cannot be prevented, it cannot be helped. Events are developing."

There was much excitement at the hearing when the messenger read Dr. Helfferich, former vice-chancellor, whispering "Nonsense."

## Evacuation of Two Big Towns Ordered

Col. Avolod-Bernhardt Declares He Has Offered an Armistice to the Lots

Berlin.—The British naval commander at Libau, says a dispatch from Revel, Estonia, has sent a demand to Col. Avolod-Bernhardt to evacuate "Ust. Dyvinsk" (Dymandovo) Thorensberg, west of Riga.

Col. Avolod-Bernhardt, in reply, says that after a successful battle against a stronger base for an offensive against the Bolsheviks he had offered an armistice to the Letts October 10.

He requested that his endeavors to obtain an armistice should be supported.

Tremendous Number of Guns and Ammunition Has Been Sent

Vladivostok.—General Knox, chief of the British military mission, in a statement to the Russian Telegraph Agency at Omsk, says:

"Great Britain has furnished the Siberian General Denikin with

great quantities of munitions—hundreds of thousands of rifles, hundreds of millions of cartridges, hundreds of thousands of machine guns, as well as several hundred thousand sets of uniforms and equipments. Each cartridge fired this year by Russian soldiers was made in England, by English material and by English workers, the supplies being shipped to Russia on English steamers.

Another time I saw myself with my own eyes and which were repeated day after day, I met a woman and child, ragged and as skeletons, the child crying constantly with an unchanging expression of terror. The mother said that the child was hungry and asked for a piece of bread as they had not eaten for twenty-four hours. I opened my purse, but the woman turned away saying, "No, not money, but bread."

Another time I saw a blonde-haired young girl with arms outstretched, leaning like a living crutch against a wall and murmuring, "Am I hungry." Next day she died.

I have seen children, hardly clothed, hollow-cheeked, and with forms like shadows, on their knees in the street trying to pick from the paving stones grains of wheat that had fallen from a sack. I have seen before babies, women and children stretched on the cold stone, waiting through days and nights their turn to get their meager ration of bread; and then often falling exhausted and dying at the door step before they received it."

British Embassy in Berlin

London.—Walford H. Selby has been appointed provisional representative of the British Government in Berlin. He will open the embassy, Berlin as soon as the peace treaty becomes effective. The Associated Press was officially informed to this effect.

Hun Soldiers to Face Trial

Paris.—The first two members of the German military forces charged with crimes during the German occupation of France have arrived at Lille, to stand trial. They are a non-commissioned officer named Strautz and Lieut. von Linden, charged with theft and other offenses at Halluin and Roubaix respectively. They have been lodged in the Lille citadel pending trial.

Opposite State Purchase of Liquor

London.—Addressing the annual gathering of the United Kingdom Alliance, perhaps the most influential prohibition association here, President Lieut Jones declared that any statesman who brought a measure for the nationalization of the drink traffic would not last a fortnight.

A delegate who advocated a state purchase encountered much opposition.

"Pussy-foot" Johnson addressed the meeting.

New York.—Rioting broke out again around the Lexington theatre, when for the second time in a week the Star Opera company produced German opera over the protest of veterans of the world war.

## Mennonites Must Comply With Law

No Deviations From Enforcing School Attendance Act

Winnipeg.—There will be no deviation from the rule of enforcing the School Attendance Act in Manitoba, and Mennonites, like other sections of the community, will have to comply with the law. Dr. Thomson, minister of education, told a delegation of Mennonites which requested the government to postpone enforcement.

The visit was the result of developments in the municipality of Hanover. Man., following legislation enacted at the last session of the legislature.

Previously Hanover had no public school, but the government has mapped out the whole district into public school areas and two schools are already in operation and two others nearing completion.

## Committee on Execution of Treaty

Lord Derby Appointed as Delegate to Represent Great Britain

Paris.—The nominations of various delegates to the committee on interpretation and execution of the German peace treaty were put on record by the supreme council. The nominations registered were:

Italy—Count Bonin-Longare, the ambassador to France, and Signor Pisano.

France—Stephen Fischer, the foreign minister, and Philippe Berthelot, political director of the foreign office.

Great Britain—Lord Derby, the ambassador to France.

Japan—Baron Matsui, ambassador at Paris.

## Sufferings in Russia

Men, Women and Children Are Falling Dead in the Streets From Hunger

Paris.—Pictures of Moscow's hunger are given in the Figaro by a Russian princess arriving from Russia. "I will not speak of the terrible revolting and odious things that passed in the streets of Moscow," she said, "but that only of the hunger incidents I saw with my own eyes and which were repeated day after day. I met a woman and child, ragged and as skeletons, the child crying constantly with an unchanging expression of terror. The mother said that the child was hungry and asked for a piece of bread as they had not eaten for twenty-four hours. I opened my purse, but the woman turned away saying, 'No, not money, but bread.'

British Embassy in Berlin

London.—Walford H. Selby has been appointed provisional representative of the British Government in Berlin. He will open the embassy, Berlin as soon as the peace treaty becomes effective. The Associated Press was officially informed to this effect.

Australian Gratitude

Brisbane, Australia.—Premier Hughes in a speech here announced that the soldiers' gratuity of eight pence a day would be paid in negotiable bonds carrying 5½ per cent interest. The gratuity would cost the Commonwealth twenty-five million pounds sterling.

Bolshevik Defeated

London.—The Bolshevik forces have been flogged back in the Kanishan section, losing 4,000 men, who were taken prisoner, and many machine-guns, according to Gen. Denikin's wireless message. Extremely fierce fighting is reported in that districts.

Refuse German Request

Berlin.—The Supreme Council has refused a request from the German government that members of the inter-allied commissions in Germany should not wear uniforms after the peace treaty comes into effect.

The king will spend some time shooting with the Duke of Westminster.

King Alfonso Likes English Life and English Sports

London.—The King and Queen of Spain are expected to arrive here for an indefinite visit. The King prefers to play the part of a private individual, rather than that of an official visitor during his London sojourn and will stay at the Ritz hotel.

The king will spend some time shooting with the Duke of Westminster.

King Alfonso likes English life and English sports. He goes about the streets shooting like any tourist and picks up a cab when he needs one.

The former King Manuel of Portugal and the Duke of Westminster are his intimates in England.

# Naval Defence For The British Empire

## Austrian Constitution Is Amended

Dr. Otto Bauer Chosen Chairman of Commission to Frame New Constitution

Vienna.—The national assembly

met upon the question of naval defense for the British Empire and her colonies in the Pacific ocean and Far East is now before the Austrian House.

Lord Jellicoe assumes throughout the report that future danger to the empire and its colonies lies in the Pacific and the Far East. The second dominant note in the report is his insistence of the value of capital ships as the chief weapon at sea. Lord Jellicoe's apparent assumption regarding Canada is that she will readily part her share into vessels and their upkeep.

It is probable that the first vessels for both Canada and Australia will be a gift from the British fleet. He recommends that there be an Australian fleet of two battle cruisers, eight light cruisers and 13 destroyers, besides eight submarines and other subsidiary craft. This is based on the conception of an imperial Far East sea-going fleet, comprising vessels of the royal navy, the East Indian squadron and the Australian, Canadian and New Zealand navies. Upon these Britain would contribute 7.75 per cent, Canada 12.3 per cent, and South Africa and New Zealand the balance.

While Canada's percentage is thus fixed at a comparatively high figure, Lord Jellicoe proposes to bring up the percentages of Australia and New Zealand by an additional assessment in view of the fact that they are not called upon to pay their share of the cost in the Atlantic, by asking these colonies to bear 25 per cent of the 74 assumed by the British in the Far East.

## Bolshevik Destroyers Sunk

Three Hundred and Forty-six Lives Lost During Attack in Gulf of Finland

Stockholm.—Three hundred and forty-six lives were lost when two Bolshevik destroyers, in an attack on Estonian craft and British destroyers in the Gulf of Finland, struck mines, according to the Estonian official communication.

Four destroyers, fitted for minelaying, the communication adds, left Kronstadt with the object of supporting a landing of troops.

## Wants Russia to Make Peace Offer

London.—Michael Tereshchenko, former minister of foreign affairs in Russia, who fled to Sweden from his native country in 1918, has proposed to the state council at Moscow that a peace offer be made to the enemies of Russia, according to a wireless dispatch received here from Berlin. It is reported an official representative of the United States is in Moscow and is willing to submit the offer to the allies.

French Vessels Reported Active on Forts Are Able to Keep Beyond Range of Fortress Artillery

Copenhagen.—A dispatch from the Foreign Office from Copenhagen reports that French warships are bombarding Kronstadt. They are able to keep beyond range of the fortress artillery, owing to the long range of their guns.

Washington.—White committees representing miners and operators, making a final effort to avert the strike of half a million miners on November 1, were on the verge of paring for good, Secretary of Labor Wilson held them together, overnight at least, with a wage increase proposal that the union demands for a 34-hour week.

There was every assurance that the operators would accept it, and every indication that it would be rejected bodily by the miners.

Refusal of the miners to accept will bring the conference to a close and force government officials to resort to other means to prevent the closing of the mines with the first approach of winter.

Secretary Wilson's offer, which prevented acute disruption of the proceedings, set forth the following:

That wages be increased at the expiration of the present contract in an amount equal to the differences between increases in wages received by the mine workers since July, 1914, and the increase in the cost of living since that date.

That the increase be effective from the termination of the present agreement until March 31, 1920.

That the miners withdraw and that the miners continue at work on those terms; that negotiations be entered into at the usual time for making the new scale effective after March 31, 1920.

## Too Much Appetite may be as dangerous as too little

When the skin is sallow or yellow, the eyes dull, the head aches or sleep broken and unrefreshing, the back aches, or there is a pain under the right shoulder blade—it is an indication that the body is being poisoned by poorly digested and imperfectly eliminated food-waste. Aged Priest Comes Back to the Land

He Loves to End His Days

He returned at his request to die in the land that he labored in for more than 40 years. Father Auguste Lecomte, now 74 years old and totally blind, arrived at New York on the steamer La Touraine, on his way to Canada. Father Lecomte was for 42 years in charge of missions along the Mackenzie River, in the far north of Canada, and with a flowing snow-white beard and black skull cap, was a striking figure among the passengers. With him returned several sisters of the Order of Daughters of Jesus, and he will go with them to St. Albert's Nunnery, in Alberta, to spend his last days.

### Extent Of Damage Done To France

#### War Damages To The Extent Of \$35,000,000,000

An extraordinary meeting of the French Parliamentary Committee of Commerce was held at the Palais Luxembourg when the president, Mr. Chaumet, heard a report on public finances by Raphael Georges Leag, who showed that France has suffered through the war damages to the extent of \$35,000,000,000 francs. He declared that the next French budget will amount to 25,000,000,000 francs at the very least.

### A TONIC FOR THE NERVES

The Only Real Nerve Tonic Is a Good Supply of Rich Red Blood

"If people were only attuned to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see so many consulting rooms crowded with nervous women. More worry after worry from worry than anything else."

The sort of thing which the specialist spoke of in the nervous run-down condition caused by overwork, and many anxiety-filled, worried, tired, and themselves tired, morose, low-spirited and mable, to keep their hands on anything. Any sudden noise, a sharp sound, a bright light, a groundless fear, and do not sleep well at night. Headaches, neuritis and other nervous palsies are part of the trouble, and it all comes from starved nerves.

Drugging the nerves with physician sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich red blood. The best way to cure nervousness and run-down health Dr. Williams' Pink Pills should be taken. These pills actually make the blood thicker, which strengthens the nerves, improves the heart, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. You are at the right place if you should begin curing yourself today by taking Dr. Williams' Pink Pills.

You can get these pills through any druggist in Canada for 50 cents a box, or 25c a bottle for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Women Clerks

### In British Banks

To Become Permanent Part of Staffs

In Future

The question as to whether women clerks are to be retained in the employment of the great banks has been arousing considerable interest of late, especially among the male bank clerks themselves. It has already received the attention of the banking officials, and it is now regarded as certain that women are to become a permanent part of the staffs in the future.

At the Bank of England over 200 women clerks are employed, and these are now regarded as belonging to the permanent staff.

As regards the attitude of the male clerks, there has been no direct protest against the employment of women in banks. What, however, was strongly urged at a recent mass meeting of clerks, was that where women were employed they should be paid the same salaries as would be given to the men.

A good many of the women who took up the work during the war have proved themselves in many cases especially good at counter work, and very adaptable in some other branches of the banking business. In some instances the woman clerk has been preferred to the junior male clerk, who may have returned from the army to take up their old work, the youth, who was only regarded as a temporary employee, has been discharged, and the women retained. This practice is however, not looked upon with favor by the majority of the permanent male clerks.

We understand that H. G. Benson has secured a lease of the new store built by and adjoining that of the F. M. Thompson Co., east of seventh Ave. Mr. Benson hopes to move into his new meat market before Christmas.

The grand master and other grand officers will visit Coleman Midshipmen's Lodge on Monday night next, and will attend a special meeting of Midshipmen's Lodge on Wednesday night, to which meetings Blairmore and visiting members are invited.

Mr. W. A. Pritchard, one of the labor leaders arrested in Winnipeg some time ago, and released on bail, will address a public meeting in the Eagle's Hall, Coleman, tomorrow, Friday night, at 8 o'clock. His subject will be "Hardships endured during the Winnipeg Strike."

At a special meeting of Lethbridge Encampment No. 7 at Lethbridge on Wednesday night, the members of Vulcan and Medicine Hat Encampments and a large number of visiting patriots were entertained. Three degrees were conferred in a class of 21 in an able manner by teams from Lethbridge Encampment. Following the degree work, the meeting was addressed by Grand Patriarch J. J. B. Little, Grand Scribe H. J. Adams, Grand Warden Major W. B. Burnett and others, the chair being occupied by Mr. White, D. D. G. P. of Lethbridge. A sumptuous luncheon was served by the social committee.

### Rest With Nature

The closer you follow the rules of Nature the more you will accomplish, and the longer you will live, even Nature takes her rest during the Winter months—why not you? Spend this Winter on the Pacific Coast; where you can enjoy Summer pastimes, Ride, Motor and Golf in the big outdoors.

The Canadian Pacific Railway operates three through trains daily to Vancouver including the fast all-sleeping car train "Trans-Canada Limited." See the magnificent mountains in their Winter garb; the open seas and green fields—all this and more await you at the Pacific Coast.

A Cowley farmer, who is an Enterprise reader, was accosted by a Pass business man last week and asked why he had sent away for a certain article that he had received from the T. Eaton Co., saying "I could have supplied you with a better grade article at less cost." "Well," said the farmer, "how should I know what it is in stock? You never advertise and the other fellow does." And still the same business man can't tumble.

Judge Graham, in the DePauline Street police court, Chicago, took one glance at the "cootie crawl" as demonstrated by Julius Fleiblant and Gertrude Kaski and said it would never do. He fined Julius five and costs and said the next offenders would be harder hit. Would that Judge Graham would locate in Blairmore for a while and puts stop to the numerous styles of "cootie crawls" demonstrated here.

A large congregation turned out on Sunday morning last to hear Bishop Pinkham at the Anglican church. The Bishop in the course of an able and inspiring address, referred to the splendid spirit displayed by Canadians in response to the call to arms and the duties that devolved upon them at home. Particularly did he appeal for attention to the inmates of our military hospitals. In the morning he had the opportunity and pleasure of meeting the boys at the Frank Sanatorium, whom he addressed briefly. During the morning service at Blairmore, the Sacrament of Holy Communion was administered by the Bishop, assisted by the pastor, the Rev. H. Gray.

In the evening an impressive service was held at St. Alban's church, Coleman, where His Lordship addressed a large congregation and administered the laying on of hands to nine candidates.
